1. Log into Webmail using Internet Explorer (version 7 or 8). I was unsuccessful locating ‘Spell Check’ under ‘Options’ using Firefox.
2. Click on ‘Options’ located in the upper right side of the screen.
3. Click on ‘Spelling’ located on the left side of the screen.

Another way to Spell Check a Message, in both internet Explorer and Firefox is, to right-click on the misspelled word in your message and select ‘Check Spelling’
