

Issued: Monday July 1, 2013

Question #1

What is the current pricing for the current pest control agreement? I tried to find it on line but was unable to find it.

Answer to #1

The last bid was in 2006-2007 and we have both added buildings and subtracted buildings, making it difficult to compare specifically. Please see the attached bid tabulations.

Question #2

I also need to know the number of rodent stations that are currently in place and are these stations property of the SPC?

Answer to #2

The number is unknown, and SPC does not own any of the rodent stations. They belong to the current vendor, and they are all located outside the buildings on an as needed basis.

Question #3

How many full kitchens are part of the scope and where are they located?

Answer to #3

There is only one full kitchen that will be a part of this ITB, it is at the Epi Tech Building located at 13805 58th Street North, Clearwater FL 33760. All other kitchen areas are the responsibility of the food providers.

Question #4

Why did no one respond to the bid that was due on June 18th?

Answer to #4

We are not sure at this time, we believe it was because the appropriate person did not get the information on a timely basis.
